

Privacy Policy

CampusFind Pro - Privacy Guidelines and GDPR Standards

1. Scope of Personal Data Collection

CampusFind Pro collects minimal personal data via Google OAuth scopes. This includes names, email addresses, and profile pictures. System activity logs collect IP addresses and action logs for security audits.

2. Data Protection & Retentions

- Data is stored inside encrypted MongoDB Atlas cloud database servers and is never shared with third parties.
- Users can request the deletion of their accounts at any time. Inactive users and log documents are auto-purged after 12 months.
