

Product Requirement Document (PRD)

CampusFind Pro - Product Specifications

1. Executive Summary

CampusFind Pro is a secure and centralized lost-and-found system custom-designed for university campuses. The goal of the platform is to streamline item reports, reuniting students with lost property quickly using cloud NoSQL indexing and dynamic notifications.

2. User Personas

- **Students:** Look for lost personal property and log found items.
- **Campus Security & Admins:** Verify property ownership claims and manage system configurations.

3. Core Features

- **Google OAuth Authentication:** One-click secure sign-in.
- **QR Code Tagging:** Auto-generated recovery tokens.
- **Brevo HTTP API Notifications:** Bypasses server port blocks to deliver emails instantly.
