

Privacy Policy

CampusFind Pro - Personal Data Protection and GDPR Compliance Standards

1. Scope of Personal Data Collection

CampusFind Pro collects essential user data to maintain account authentication and profile mapping. This includes your name, email address, profile picture (from Google OAuth), and active session logs (such as IP addresses and action timestamps) collected for security audits.

2. Data Storage, Security & Compliance

- Data is stored within encrypted NoSQL MongoDB Atlas cloud databases. All network traffic is encrypted using SSL/TLS.
- Personal information is never shared, sold, or leased to third-party marketing companies.
- We use tracking cookies solely to maintain session state and keep you logged in to your student dashboard.

3. User Rights & Data Retention Policies

Students have the right to request access, correction, or permanent deletion of their personal records. To request account deletion, contact the IT administration desk. All inactive student profiles and activity log documents are automatically purged from the database after 12 months.
